GENERAL POLYMERS THERMOPLASTIC MATERIALS CONTINUES TO EXPAND COMMERCIAL COVERAGE IN NORTH AMERICA TO TENNESSEE & MINNESOTA REGIONS.

TO SUPPORT THESE AREAS OF GROWTH AND NEEDS, GENERAL POLYMERS MOVES INTO NEW OFFICE AND WAREHOUSING SPACE IN ROCHESTER HILLS, MI

General Polymers Thermoplastic Materials
6841 North Rochester Rd. Studio 1A (upstairs)
Rochester Hills, MI 48306

common areas include:

- 47,000 sq-ft office space
- 20,000 sq-ft of Secure, climate-controlled storage space for your inventory
- Real Time Inventory, Order Status, Shipment History/Tracking

The Gap in the Market/ Meeting the Market's Needs

-The creation of "Super Distributors" - Consolidation through acquisition of smaller regional/national distribution entities into larger multinational organizations.

-Distributors having increased restrictions and fewer options for the varying needs of small to mid-size processors. Opportunities to offer services and understanding/caring about the needs of injection molders and custom profile extruders.

-Instead of focusing on volume driven business, we are focused on being a value driven, solution provider focusing on compounded and engineering resins.

-Large distribution networks have lost their focus. Knowledge of product line is narrow and diluted. Too many suppliers and product lines leads to order taking vs. development sales. General Polymers to provide a more focused effort on development activities with fewer suppliers. Aligning market strategy to complement the supplier and support the needs of processors, a step back in time...
